Quotation prepared for: Stock – Refurbished 3-Phase Unit

SWEED CE 450WM STAND SCRAP REDUCER

GENERAL SPECIFICATION

The Model 450WM is designed for moderate scrap processing. It will quickly reduce plastic strap, metal band, light wire, small tubing, saw blades and mild steel flat bar. The release handle makes material processing easy and safe. A 36 Kg flywheel provides the power needed to process even heat-treated metal banding quickly and efficiently. The Model 450WM has plenty of pulling tension to ensure smooth, continuous feeding of even high volumes of plastic banding.

MACHINE SPECIFICATION

- Infeed speed: 33.5mpm
- Cut length: 75mm
- Infeed opening: 102mm x 25mm
- Weight: 142Kg
- Dimensions: 91cm x 66cm x 33cm
- Motor rating   415V / 0.55kw /3ph

MATERIAL SPECIFICATION

The following are the recommended maximum capacities for the Model 450WM. Theses guidelines are for the amount of material that can be fed into the machine at one time:

- Up to two 19mm x 1.00mm steel band with or without clips
- Single steel bands up to 32mm without clips
- Up to six PET straps
- Single strand 9-guage high-tensile wire without knots or twists
